# ROY SIVAN

## I'D BE A GOOD FIT FOR A LEADERSHIP ROLE AT DISNEY

---

As a Senior Software Engineer at The Walt Disney Company, I created solutions for multiple business units with diverse team objectives, improved my technical knowledge by constantly learning, and mentored junior engineers. Since, I have expanded on those skills by leading and collaborating with teams to deliver impactful solutions.

I am eager to continue expanding my technical and management skills while adding a touch of magic back into my work.

## EXPERIENCE

---

### Snap Solutions Engineer

2022 – Current

- Supported our top advertisers by carefully listening and being empathetic to their technological issues
- Collaborated with got-to-market teams to develop strategic objectives for new products and features
- Engineered and defined solutions that were attributed to over \$1MM in additional revenue
- Managed the engineering team that successfully launched Snap's new public documentation for the Marketing and Conversions APIs

### The Walt Disney Company Senior Software Engineer

2014 – 2022

- Collaborated with stakeholders to design and implement features that increased guest engagement
- Diagnosed and resolved bugs in high-traffic applications, like Walt Disney World's dining plan, enhancing system reliability and performance
- Developed prototypes using emerging technologies to improve applications on Walt Disney World's website
- Created tooling to accelerate the packaging and deployment of web applications
- Established and maintained coding standards, improving code quality, efficiency, and consistency
- Mentored aspiring engineers in the Code:Rosie program, leading to an increased gender diversity
